> Working copy draft 2026-11-09-draft. English text from the published QMAS User Guide, with dev-verified corrections from 9 Nov 2026. Unreviewed screenshots are omitted.

Internal QC Inspection — Start an Internal Inspection

Schedule an inspection that your own QC team carries out, without a third-party provider.

> Screenshot slots: 3 pending privacy review. The written steps are included.

Module	Internal QC Inspection
Start here	https://qmas.icw.io/inspection/internal/list → **Create Job**
Direct link	https://qmas.icw.io/inspection/jobs/new?type=internalInspection
Steps	1 Inspection Requirement → 2 Report Details → 3 Supplier & Factory → 4 Additional Information → 5 Review & Submit
Checked against	QMAS dev, 4 Nov 2026

Overview

1. Open **Internal QC Inspection** and click **Create Job**. **Start internal inspection** is already selected. Click **Continue**.
2. **Inspection Requirement**: date, type, level and AQL.
3. **Report Details**, **Supplier & Factory** and **Additional Information** work the same way as in the QC Inspection quote flow.
4. **Review & Submit**: check everything and click **Submit**.

Step-by-step

1. Open Internal QC Inspection

In the left menu, open **Internal QC Inspection**. The tabs show **All Job**, **Onsite Job Calendar** and **Draft**. Click **Create Job**. To add many jobs at once, use **Import Job**.

> **Image pending privacy review**
>
> File name: `01-list.jpg`
>
> Reviewed replacement image not available yet. Follow the written steps above.

Internal QC Inspection list with Import Job and Create Job.

2. Start internal inspection

Start internal inspection is selected. Click **Continue**.

> **Image pending privacy review**
>
> File name: `02-looking-to.jpg`
>
> Reviewed replacement image not available yet. Follow the written steps above.

Create New Job — Start internal inspection selected.

3. Inspection Requirement

Choose the **Inspection Date**, **Inspection type**, **Inspection Level** and the **AQL** (Critical, Major, Minor). There is no budget or service provider, because your own team does the inspection. Click **Next**.

> **Image pending privacy review**
>
> File name: `03-step1-requirement.jpg`
>
> Reviewed replacement image not available yet. Follow the written steps above.

Step 1 Inspection Requirement for an internal inspection.

4. Steps 2–5

The next steps are the same as in the QC Inspection quote flow. See the QC Inspection guide for those steps.

- **Report Details**: add products and their POs.
- **Supplier & Factory**: select the supplier and the factory to inspect.
- **Additional Information**: upload reference files and add remarks.
- **Review & Submit**: check the summary, then click **Submit**. The job opens with its Job ID.

Tips

> If you need a third-party inspector instead, use QC Inspection → Create Job → **Get QC inspection quote via ICW**.

> Click **Save** on any step to keep a draft.

FAQ

How do I start an internal inspection?

Go to Internal QC Inspection (https://qmas.icw.io/inspection/internal/list), click Create Job, keep Start internal inspection selected, click Continue and complete the 5 steps. Direct link: https://qmas.icw.io/inspection/jobs/new?type=internalInspection

Can I import internal inspection jobs?

Yes. Click Import Job on the Internal QC Inspection list.
